

LINKS TO HELPFUL OIL SPILL RESOURCES

This list of websites devoted to oil spill science research and response contains helpful links to a host of resources in one convenient location.

RESEARCH RESOURCES:

- Sea Grant Oil Spill Science Outreach Team - <https://gulfseagrant.org/oilspilloutreach/>
 - Read our latest oil spill publications, view recordings of all our past seminars, and find out what we have coming up next.
- Gulf of Mexico Research Initiative (GoMRI) - <http://gulfresearchinitiative.org/>
 - Don't know what GoMRI is? This website has all things GoMRI. Find the latest publications, researchers, newsletters, and links to individual consortia webpages.
- Gulf of Mexico Research Initiative Information and Data Cooperative (GRIIDC) - <https://data.gulfresearchinitiative.org/>
 - Need data? This website houses all the data that has been collected by GoMRI-funded scientists. It is free and open to the public.
- NOAA's Data Integration Visualization Exploration and Reporting (DIVER) - <https://www.diver.orr.noaa.gov/>
 - This website contains NOAA's datasets associated with the evaluation and restoration of environmental injuries. Find out how to use NOAA's tools to search, visualize, and download data.
- NOAA's Environmental Response Management Application (ERMA) - <https://response.restoration.noaa.gov/maps-and-spatial-data/environmental-response-management-application-erma>
 - This online mapping tool integrates both static and real-time data. Use this tool to view Environmental Sensitivity Index maps, ship locations, weather, and ocean currents. ERMA is designed to aid in spill preparedness and planning and to assist in coordinating emergency response efforts.

RESPONSE RESOURCES:

- United States Coast Guard Interagency Coordinating Committee on Oil Pollution Research (ICCOPR) - <http://www.dco.uscg.mil/ICCOPR/>
 - Find out more about this 15-member Interagency Committee that was established by the Title VII of the Oil Pollution Act of 1990.
- The U.S. National Response Team - <https://www.nrt.org>
 - Learn about the U.S. National Response Team and how they provide assistance, resources, and coordination on preparedness, planning, response, and recovery activities for pollutants and contaminants. This website also lists all the information about the Regional Response Teams.
- FEMA Emergency Management Institute Incident Command Resource Center - <https://training.fema.gov/emiweb/is/icsresource/>
 - Want to learn more about Incident Command System (ICS)? This website contains ICS review documents, training courses, job aids, and more.
- NOAA Office of Response and Restoration (OR&R) - <https://response.restoration.noaa.gov/>
 - Learn everything there is to know about NOAA's OR&R. Find out what role NOAA plays in oil and chemical spills, environmental restoration, and marine debris. Also explore their training and education opportunities.
- NOAA Final Programmatic Damage Assessment and Restoration Plan (PDARP) - <http://www.gulfspillrestoration.noaa.gov/restoration-planning/gulf-plan>
 - This report contains an electronic version of the PDARP that explains the injuries caused by the Deepwater Horizon oil spill.
- NOAA's Role in Response - <https://response.restoration.noaa.gov/oil-and-chemical-spills/oil-spills/resources/fosc-guide.html>
 - Find an electronic version of An FOSC's (federal on-scene coordinator) Guide to NOAA Scientific Support. The guidebook was written for oil and chemical spill responders and FOSCs and lists references to the scientific support services available NOAA OR&R's Emergency Response Division.
- Contact NOAA Scientific Support Coordinators - <https://response.restoration.noaa.gov/about/orr-field-staff.html>

Texas • Louisiana • Florida
Mississippi-Alabama

This work was made possible in part by a grant from The Gulf of Mexico Research Initiative, and in part by the Sea Grant programs of Texas, Louisiana, Florida and Mississippi-Alabama. The statements, findings, conclusions and recommendations do not necessarily reflect the views of these organizations.
