Workshop: Mid-Atlantic Oil Spill - Are We Ready?

Join experts in emergency management, health, environment and community impacts to discuss what oil spills in our region mean to the health, economy, and well-being of our community.

In May 2017, 94,000 gallons of jet fuel spilled at the Naval Air Station Oceana. How prepared are we if a major oil spill occurs in the Mid-Atlantic? What impacts would that have to tourism, the seafood industry, and community health?

No Registration Fee.

Location: Wyndham Virginia Beach Oceanfront
5700 Atlantic Avenue, Virginia Beach, VA 23451

Questions? Contact Grace Walker (gdwalker@odu.edu) or Michelle Covi (mcovi@odu.edu). More information to follow at the end of January.
